

Notified Body

EU Type Examination Certificate

Manufacturer company name: Robert Bosch Engineering & Business Solution Pvt. Ltd.
Manufacturer address: 123, Industrial Layout, Hosur Road, Koramangala, Bengaluru, 560095
India
Description of the radio equipment: Micro Climate Monitoring System
Trade name/brand name: BOSCH
Model/type indication: BOSCH CLIMO
Software version: 1.0.0
Hardware version: 1.1
Frequency bands of operation: 880 MHz to 915 MHz
1920 MHz to 1980 MHz
TCF reference: AD00A40100
ACB project number: ATCB022521
Certificate number: ATCB022521, issue 1

ACB, Inc. is designated as a Notified Body under the
U.S.-EU Mutual Recognition Agreement for Radio Equipment Directive 2014/53/EU

ACB, Inc.
Notified Body Number 1588
6731 Whittier Avenue, Suite C110
McLean, VA 22101, USA

In the opinion of ACB, Inc., the examination of the technical documentation as drawn up by the manufacturer demonstrates that the essential requirements of Article 3.1a, Article 3.1b and Article 3.2, of Radio Equipment Directive 2014/53/EU have been met. The conformity assessment on the radio equipment listed above and as described in Annex 1 to this EU-type examination certificate has been carried out in accordance with Annex III, Module B, of Radio Equipment Directive 2014/53/EU. This EU-type examination certificate relates only to the documents as provided to ACB, Inc.

A list of documentation forming the basis for the EU-type examination is provided in
Annex 2 to this EU-type examination certificate.

Notified Body: *Hans Chang*

Date

Annex 1 to EU-type examination certificate for Radio Equipment Directive 2014/53/EU

Date of issue: 31 May 2018

TD reference: AD00A40100

ACB project number/certificate number: ATCB022521, issue 1

The radio equipment as described and documented in the technical documentation as drawn up by the manufacturer is a Micro Climate Monitoring System.

It used UMTS technology in the 900 MHz Band VIII and 2100 MHz Band I.

This radio equipment also supports operation in frequency bands which are not available for use in Member States of the European Union and EFTA countries and which have not been included in this conformity assessment.

The conformity assessment of this radio equipment is limited to those frequency bands of operation which are available for use in one or more Member States of the European Union and EFTA countries as detailed below.

Details of operation:

Description of service:	UMTS 900 MHz Band VIII
Transmit Frequency:	880 MHz to 915 MHz
Receive Frequency:	925 MHz to 960 MHz
Modulation type:	QPSK
Power Class	Class 3
Transmit power:	30.9 dBm, EIRP

Description of service:	UMTS 2100 MHz Band I
Transmit Frequency:	1920 MHz to 1980 MHz
Receive Frequency:	2110 MHz to 2170 MHz
Modulation type:	QPSK
Power Class	Class 3
Transmit power:	30.9 dBm, EIRP

| Product safety (Article 3.1a): | IEC 62368-1 2014 | |

Annex 2 to EU-type examination certificate for Radio Equipment Directive 2014/53/EU

Date of issue: 31 May 2018

TD reference: AD00A40100

ACB project number/certificate number: ATCB022521, issue 1

4 Additional information:

This is a Class 1 device.

This device will have the RF WWAN modules installed inside optionally, depending on the request. All the modules support the same frequency bands (modules with Telit HE910-D) and an existing EU-type examination certificate: DEKRA, 51661RCB.001(issue date:2017-05-12).

Radio Equipment Directive 2014/53/EU, Article 10.4: Manufacturers shall keep the technical documentation and the EU declaration of conformity for 10 years after the radio equipment has been placed on the market.

Radio Equipment Directive 2014/53/EU, Article 10.6: Manufacturers shall ensure that radio equipment which they have placed on the market bears a type, batch or serial number or other element allowing its identification, or, where the size or nature of the radio equipment does not allow it, that the required information is provided on the packaging, or in a document accompanying the radio equipment.

Radio Equipment Directive 2014/53/EU, Article 10.7: Manufacturers shall indicate on the radio equipment their name, registered trade name or registered trade mark and the postal address at which they can be contacted or, where the size or nature of radio equipment does not allow it, on its packaging, or in a document accompanying the radio equipment. The address shall indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by end-users and market surveillance authorities.

Radio Equipment Directive 2014/53/EU, Article 10.8: Manufacturers shall ensure that the radio equipment is accompanied by instructions and safety information in a language which can be easily understood by consumers and other end-users, as determined by the Member State concerned. Instructions shall include the information required to use radio equipment in accordance with its intended use. Such information shall include, where applicable, a description of accessories and components, including software, which allow the radio equipment to operate as intended. Such instructions and safety information, as well as any labelling, shall be clear, understandable and intelligible.

The following information shall also be included in the case of radio equipment intentionally emitting radio waves:

- (a) frequency band(s) in which the radio equipment operates;
- (b) maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates.

Radio Equipment Directive 2014/53/EU, Article 10.9: Manufacturers shall ensure that each item of radio equipment is accompanied by a copy of the EU declaration of conformity or by a simplified EU declaration of conformity. Where a simplified EU declaration of conformity is provided, it shall contain the exact internet address where the full text of the EU declaration of conformity can be obtained.

Radio Equipment Directive 2014/53/EU, Article 10.10: In cases of restrictions on putting into service or of requirements for authorization of use, information available on the packaging shall allow the identification of the Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorization of use exist. Such information shall be completed in the instructions accompanying the radio equipment.

Radio Equipment Directive 2014/53/EU, Article 19.2: On account of the nature of radio equipment, the height of the CE marking affixed to radio equipment may be lower than 5 mm, provided that it remains visible and legible.

Radio Equipment Directive 2014/53/EU, Article 20.1: The CE marking shall be affixed visibly, legibly and indelibly to the radio equipment or to its data plate, unless that is not possible or not warranted on account of the nature of radio equipment. The CE marking shall also be affixed visibly and legibly to the packaging.

Annex 2 to EU-type examination certificate for Radio Equipment Directive 2014/53/EU

Date of issue: 31 May 2018

TD reference: AD00A40100

ACB project number/certificate number: ATCB022521, issue 1

Radio Equipment Directive 2014/53/EU, Annex III, Module B.7: The manufacturer shall inform the notified body that holds the technical documentation relating to the EU-type examination certificate of all modifications to the approved type that may affect the conformity of the radio equipment with the essential requirements of this Directive or the conditions for validity of that certificate. Such modifications shall require additional approval in the form of an addition to the original EU-type examination certificate.

This review includes draft standards, deviations from the standards and technical justification for compliance.

In accordance with Notified Body guidance; if there are no changes, a Notified Body EU type examination certificate has a validity of 10 years from the date of issue.
